p.1. (left-most caption)

The current president of the United States of America, Franklin D. Roosevelt, has stated that he would be proud had he been born of Jewish ancestry. Yes, he wanted only the possibility that his parents could have been of Hollander Jews with the name Rosenfeld but by no means would he have actually wanted that.

p.1 (right caption)

The man, who here is seen speaking so amicably with the President (what type of joke has he let fly?) is Fiorello LaGuardia, the mayor of New York. LaGuardia is half Jewish.

p.3

The mayor of New York is well-known for looking after his physical well-being. He is completely right: Why let the food that the jobless masses of New York can't buy go to waste?

p.4 (upper caption)

LaGuardia has something Napoleonic about him, but this picture's style is a little out of date. The windswept hair does not do anything for him.

p.4 (lower caption)

Maybe it's the Jewish side of him that causes the mayor to behave like a harlequin in public. From all others, this expression would be extremely embarrassing.

p.5

So this is one a speaker of a "Worker's Party" looks like. And the workers who have been cheated by him notice nothing! In 1936, a leader of a communist party made a radio announcement saying that the communists would give their support to LaGuardia. LaGuardia's private secretary, a woman with a great deal of influence, is named Betty Cohen.

One doesn't need to be a zoologist to see that there are some odd similarities between these two, fortunately-timed photographs.

p.6 (lower caption)

This rude insult of the Fuehrer had an expressed negative pitch: in 1937 he gave the Third Reich two years stay of execution. He is decidedly the comical type under the small prophets [sic].

p.8 (upper caption)

Here is an example of a deceptive maneuver by American Jewry. This poster for the election of the mayor of New York shows a 100% American whom one could rate among the best presidents in terms of being easy on the eyes.

p.8 (lower caption)

But when one sees this governor, who is a good friend of President Roosevelt, in actual light, one sees a grinning Jew with hair in his nose. The orchid-bedecked Sarah laughs...Governor Lehman, orthodox Jew, has in many cases used his power to pardon gangsters.

p.11 He wants the full extermination of the German people

Theodor Kaufman, president of the American Freedom League and close coworker of Roosevelt adviser Samuel Roseman, wrote a book under the title "Germany must die" which is now in wide circulation. In Jewish literary circles in New York, it is explained that Roosevelt helped develop the main points of the book and even dictated the most important parts. The program to be used to destroy the German people is laid out in the book. "1. The German Wehrmacht will be incarcerated (!), sterilized, and placed in work camps. 2. The German population, especially men under 60 and women under 45, will be sterilized. Thereby the extinction of the German people will be completed within two generations.

p.14 (lower caption)

A leaflet opposing Roosevelt's Jewish friendships: "Whoever votes for Roosevelt gives his votes to the Jews" it reads. Pictured are the closed Jewish friends of the US president. The result? A Jewish dictatorship with the hammer, sickle, and Star of David as its symbols!

p. 15 First Woman to Head an American Ministry – a Jew?

The leader of the Department of Labor in the US is named Frances Perkins. By her claims, she was born on 10 April 1882 in Boston. In her first marriage, she was married to a Paul Wilson. This Wilson, according to the state register, was married in 1910 in Newton, Massachusetts, but not to a Frances Perkins, but rather to a Mathilde Rebecca Wutzky, who by her own admission was born in Russia. A look at Minister Perkins profile makes believable the claim of the Chicago newspaper "The Immigration Crew" that the Jew born in Russia named Mathilde Rebecca Wutzky is identical to Frances Perkins. Mrs. Perkins, who has the last decision in matters of worker's strikes, had to defend herself against accusations from a disciplinary court in Washington that she has communist sympathies.

P.23 Not Even on Land yet – and already American

Says Henry Ford about Jewish immigrants in his book “The International Jew”:
“They bring along the resentment towards the local majority which they had developed in their previous home. They would like to warmly greet the country of America but they have their own grudges against the people...they are Jews in every sense, and one should avoid them as such”

p. 26

The American gangster is an almost exclusively Jewish opportunity. For some time city prosecutor Dewey had success in cracking up a syndicate of mostly Jewish criminals, at whose head sat a Jewish gangster with the nickname of “Lucky the Sparrow”. The gangsters had the ingenuity to pool their resources and created a multi-million dollar business out of the city’s brothels.

p. 31 **His Spoils**

How this marriage came to be one can only guess. She: a hungry novice, he: the satisfied Schlagerdichter (sic), who purchased his blonde fortune with his self-indulgent attentiveness.

p. 50 **The Rabbis are the Generals of Israel**

Zangwill: “Would you like to friendly explain to me, why Rabbis are better than priests?”
Roth: “...The priest is a soldier who follows the commands on an invisible commander...The Rabbi must himself be a general and strategist who sees the battlefield from end to end”

Manufacturing district on 5th Avenue. Is there any doubt that the Jews control the manufacturing life of the US? 85 percent of the male clothing industry is controlled by Jews, 90% of the undergarment industry, 95% of the fur industry. Between 1933 and 1935, that is in the time of the worst economic crisis, as thousands of other factories became still, the number of clothing factories grew by 2800, or more than 38%

It is Canaan, it is the promised land, where milk and honey flow: the largest land of Jews in the world with some 7.5 million Jews in a total population of about 128 million.

p. 63

Mr. Laguardia does not hold back his appetite, when of the entire working population of the USA, 13 million of 32 million are already unemployed and have no more to eat. The more hunger there is the USA, the more communes there will be, the higher the risk of a Red victory, and the higher the risk of a USA soviet paradise, in which the Jews, and only them, will be better off than they are today.
