By this ocasion I would to inform You that this is my secound appeal to the Jewish Religiob and Social-Philantopist, and Politics Jewish Organization. First time I was turned down to the many Jewish Religion and Social and Politycs Organization in 1969, when I had an accident, which accident turned to be of a very serious one, and very badly inju-ries of my leg and fracture ribs. Due to the fact that I was working in this time as an individual, self employed as a painter and I did not carry any acciënt Insurance protection, and I was about seven months totally unable to work, and in this very badly time for me and for me family, my wife was working in Macy's shop in New York, for one dollar, and 25 cent an hour and salary for a week was netto about 32 dolars, my daughter was a student in Hunter Colledge in New York, and my monhly rent was with elecricity, telephone, over two hundrets dollars.

I would to explain to You that in this time, in 1969 the many registration

Letters in English was sending to the Jewish Religion, Politycs, Social Organization and as a matter of fact I not received any answer from any of them. Only the Jewish World Congress in New York, and fifth/5/ Rabbis from fifth Synagogues, send me a letter about this my appeal for help material, as following: World Jewish Congress explaining in this letter: that as a Organization for politics and social and religion fields, do not have any fund for individual help. /photocopy of this letter is attached herewith/.

Only fifth/5/, Religion Organizations in New York, Fifth/5/, Rabbis from Fifth /5/, Synagogues, which send me a checks for \$-175/one hundred, seventy fifth/, and the above help not even cover the cost of translation, not mentioned the cost of postage registered letters, and work involved of copies, e.t.c.

The name of Organization who contribute are as following:

- 4/. Mont Eden Center I660 Morris Avenue Bronx N. York, The Rabbi -Bernard Kesten \$.10.
- 5/. One Rabbi from Bronx New York, \$.10./I loss I vergat of Name and addressee/.

Total of contribution was \$175./one hundred & seventy five/.

All names who rendered me material help in 1969 was reported to the President of Republic of Israel, and to Yad Washem University in Jeruzalem.

If the addressess has turned in this very badly for me and for my family time in 1969 to the Jewish Women Organization, I would have no trouble today/, I would have not work in such condition and fast and hemicalien, during the past 10 years period, and I would have today not breakly my right hand in many place, and my heart troble went be so bad, the heart condition and the blood circulation/according to Doctors opinions mayby I will totally dissabled to end my life/.

Also if the Addressee would have shown good will would support and transfer this matter in 1969 to the International Jewish Religion, Social and Politycs Organization and I am sure a such would fund have been created in 1969, or in the later term. Also this matter should have been reported to the President Of Israel Republic, and to The Knesset in Jeruzalem, when I had about 10 years ago broken my ribs and very badly damage my right leg and did not work about seven months, and I had no soucces to live, and I had to pay shool-Collegge for my daughter, and I pay many doctors bills.

But the Jugment belongs to the Hevenly Father and to History. And at present I found myself in a worst situation, and in more bad-situation material and health, than was about 10 years ago.

At the present I am completly dissabled very long period-since March 1977, due to my heart condition -complication, badly blood circulation, partly loss of memory, and due to broken my right hand in few place and my stiff hand finfers, are very bad I can not move/the contact broken parts of my nerves/, and I probabl will be cripel the rest of my life and due to this fact I want to able to work and at present I have hope that people with the good will and with the social feealing, my Addressee will organized for me a material help in my present very badly and critical time, and in future, will organized and create a special fund to help me.

If such a fund is not avialable, so they will suport me forwarded this matter to the Central Jewish Organization and also to The Government of Republic

Israel with the appeal to finally help me material/create the special fund/, this concern the Archives of Dr. Emanuel Ringieblum, the Archives clandestine, as Archive of Warsaw Ghetto, with I save for Jewish Nation and for History, the value over 20.milions dollars US.

I am sure I homestly deserved some how a award which enable me to live more piécefully, and hope that it this time You will not let me down without material help, as did other, maybe Your ORGANIZATION/, about 10 years ago.
