

READ AND PASS ON.....

The following two messages are from the President of the "DEFENDERS OF THE CHRISTIAN FAITH" in Wichita, Kansas, U.S.A. :-

November 3, 1956

Mr. Anthony Eden  
14 Downing Street  
London, England

Sir:

You are today the most hated man in the world.

Stalin, Mussolini and Hitler at their worst, were not as bad.

Little wonder that sixty-four nations voted yesterday condemning your action and calling for the restoration of peace.

Surely some demon must be impregnating your brain.

Can you not get quiet with your conscience and God, even now, and stop before the world leaps into a conflagration ?

You have, however, rendered one service -- that of exposing the black heart of Zionism.

Yours truly

(Sgd.) Gerald B. Winrod

c.c. President Eisenhower.

On November 12th, 1956, the Bishop of Canterbury told newsmen that he condemns the British aggression in Egypt as morally and politically wrong.

There is a great difference between what has happened in Hungary and Egypt.

In Hungary, he said, Russian troops intervened at the request of the Hungarian Government, but the British intervention in Egypt was quite the opposite and should be considered an aggression on Egypt to restore imperialistic monopolies.

A Swedish photo newsman, Mr. Anderson, gave an account of his impression after visiting Port Said shortly after the British and French criminal invaders had landed in the city.

What I have witnessed, he said, convinced me that the British & French intruders were deprived of the simplest rules of decency and humanity. He added that the savages of Britain and France, like to amuse themselves by labelling the dreadful crime they committed in Port Said, as a police action.

Mr. Anderson went on to describe what he had seen in Port Said few hours after the ceasefire. He said the whole city looked like hell with flames gripping it from all sides.

I have seen little children searching for their parents in the ruins of their homes destroyed by British & French bombs.

I have seen parents wearily searching for their little children killed under the ruins. Thousands of bodies cattered over & under the ruins of two hospitals which tumbled over their 900 occupants.

Mr. Anderson added that what he had seen and witnessed was not a police action. Air & sea bombing of homes and murdering innocent citizens in cold blood like the British & French had done, was nothing less than terrorism and murder like we have never seen in our life-time.

He concluded by stating that British officers prevented him from leaving the city, but he escaped to tell the whole world the truth about the British & French crimes in Port Said.
