My Darling Wise,

ENGLAND.

Hello honey. Hope you are well. I am feeling fine after the successful trip & am especially well because we are getting better chow than we got in the U.S.A. We get extra good food that is well prepared.

I cannot write very much tonight as I am tired and I am writing this by lantern light in our tent. I live in tent No. 6 with 3 other men.

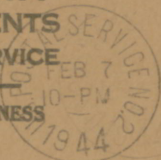

After we get settled I can tell you more about how I like England, but so far it is all very interesting and new. Have spent only one night here now. Am thinking of you. I love you, honey.

Your loving husband,
Cliff
