Jewish State Discussed by Britain and U.S.

Truman Raised Issue at Potsdam

By R.H. SHACKFORD, U.P. Correspondent

WASHINGTON, Thursday. - The United States proposed at the Potsdam Conas possible be permitted to

The President said that he had discussed the question of a Jewish National State with Mr. Churchill and Mr. Attlee. He added, "We are still dis-cussing it." He explained that he had not discussed the problem with Marshal Stalin because the Soviets had nothing to do with it.

Mr Truman stressed that the United States. while desiring that the largest possible number of Jews be permitted to proceed to Palestine, insisted that the question must be solved peacefully in negotiation with the Araba and the tions with the Arabs and the British. He said he had no intention of sending half a mil-lion troops to Palestine to maintain peace.

Britain's Responsibility

The President's statement is

President Truman's assertion that Marshal Stalin had no-thing to do with the matter, that Marshal Stain would call a conference of the and therefore was not consulted, gave the lie to reports representatives of Labour and in a single operation in a single opera that Marshal Stalin had assured him that Russia would support a Jewish State programme, provided it did not prejudice Arab interests and did not involve the migration of Jews from Russia to Palactine.

estine. The United States, it is remarked here, is interested in the matter principally because of the large Jewish population here and the fact that a number of prominent Zionists are constantly urging U.S. aid to establish a Jewish National Home in Palestine. The President grays a glear indication sident gave a clear indication that he realizes the difficulties of the problem when he said of the problem when he said that the matter must be diplo-matically arranged with Brit-arranged with Brit-

American Government at Potspam, took a position favouring the Jewish National State in Palestine if it could be peacefully established and maintained, adds the PTA.

The American view, the President continued (according to this Agency) was that they wanted to let in as many Jews as possible to Palestine, and that the matter should be worked out diplomatically with the British and the Arabs.
The President's statement is

considered as the official American denunciation of the White Paper, according to the PTA.

New Members for Jewish Agency

LONDON, Thursday. - The Mizrahi Party have agreed to return to the Jewish Agency Executive which has been broadened by the addition of eight new members, of whom five will have the right to vote only on political matters. The new appointments are:

London: Mr. Berl Locker (Labour) to have full Executive status;

Jerusalem: Mr E Dobkin (Labour) and Mr. M. Shapiro (Mizrahi), hitherto deputymembers, to have full Executive status; Dr. Bernard Jo-seph (Labour), Dr. M. Sneh (General Zionists A.), and Dr. Aaron Barth (Mizrahi) to have 'political status" - ie. the right of vote on political matters:

New York: Dr. S. S. Wise, and Dr. A. H. Silver to have political status on the Execuive, in addition to Mr. L. Lipsky and Dr. Nahum Goldmann The Jewish Agency's activities in the United States and all matters relating to Zionist policy will be supervised by Committee of eight, comprising the four foregoing members of the Executive Chaim Greenberg (Labour), Mrs. Rose Halpern (Hadas-sah), Dr. Israel Goldstein (General Zionists A.), and Rabbi Leon Gellman (Mizrahi).

It is understood that the Mizrahi agree' to return to the Executive after the decision to extend its composition on definite political ilnes. withdrew its claims when representative of the Political Depratment gave an assurance to the Inner Council that steps would be taken at Jerusalem to keep all members where Syria and the Lebanon and Allied quarters were informed of political develop-(Palcor & PTA)

Forces of Destruction

Referring to the atomic bomb, Mr Attlee said that undown by the Ministers. less the lores of the world (Cheers). "Any newspaper, now let loose on the world were brought under control it was vain to plan for the future. The atomic bomb must be controlled in the interests of all peoples and not exploited in the interests of only one people.

The demobilization of the armed forces would be speeded up, but the call up of young men must continue. In the next six weeks well over a million people would be released from munitions works.

Mr. Attlee said that the economic position in Europe was very grave. He feared that there were many people in Europe who would be both cold and hungry this winter despite all that could be done. Coal was one of the greatest difficulties. The next shortage of transport and here everything possible would be done with the aid of military vehicles.

On nationalization, Mr. Att lee said that the Government's policy for the coal mines would

What is the meaning of that? I thought that we were agreed upon our policy towards especially after Sir Walter Citrine and the trades

union report on the position.
"The British, United States and French Governments have accepted the offer to send ob-servers to Greece. I am sorry that we could not persuade Russia to send also. Has there been any change?

Offer to France "Professor Laski also made a declaration about France which has a far reaching ef-fect, namely, that if they voted Socialist at the pending elec-tion Great Britain would re-new her offer of June 1940 that Britain and France should become one nation with a common citizenship. Much has happened in five years and the idea that we should become one single nation with a common citizenship must at least be very carefully considered by the responsible Ministers before any such proposals are made to Parliament and still

less to a foreign country.
"I ask therefore, did the
Prime Minister authorize this statement, does the Foreign Secretary endorse it and has the Cabinet agreed to it? Is the offer to France conditional on a Socialist Government be-ing elected. I hope that the Prime Minister will give reassuring answers on these points"

There were cheers and counter-cheers when Mr. Churchill declared: "It is a calumny to policy for the coal mines would bring great advantages in the are supporters, admirers or long rum. The teaching of Arabic to

In the last school-year, about 50 students attended advanced courses in Arabic, including 18 students of the Hebrew University, 13 teachers and 18 gradu-ates of secondary schools, Dr. I. Ben Zeev, the Director of the Vaad Leumi courses, told the conference.

AVOIDING "DEAD MAN'S CORNER" IN HAIFA

HAIFA, Thursday. — Plans for making safe the "Dead Man's Corner" (Mountain Road junc-tion with Tiberias Street) by altering the lie of Mountain Road were considered by the Haifa Municipal Commission at an extraordinary meeting held last week. The plan would involve an expenditure of LP27,000 and the Commission decided to inform Government that the Municipality was prepared to carry out the scheme if Govern-

carry out the scheme if Government participated in the cost.
The meeting also dealt with the budget of the Jewish Educational Committee and approved ordinary expenditure of LP 13,258 for the first half of 1945/46, and LP. 6,920 extraordinary expenditure including LP.5,000 for the enlargement of two schools.

Where to Go 1 1948 OLYMPIAD AT WEMBLEY Palestinian P.o.W. in England

V-JDay Soccer & Baseball; Parerson Wants Jim Brady

The news that Avery Brundage is on his way to England to participate in indetention, and of 11 who formal talks regarding the next Olympic Games recalls the recent upheaval among athletic fans on both sides of the herring pond, in which bitter arguments took place concerning the statement made by Brundage that the Nazis, Fascists and Japs should be invited to participate in the next Games. It will be interesting to see what the loss of the large of the next Games. It will be interesting to see what the loss of the large be invited to participate in the next Games. It will be interesting to see what the reaction is in Britain. Baseball in America and Football in Britain were freely indulged in as a part of the V-J Day celebrations. The soccer games were non-leaguers, but the baseball encounters produced some National and American League shocks. The return of Jackie Paterson to England and his statement that he is after title fights, Jim Brady's in particular, heralds in a new postwar boxing boom.

Surrey hold a commanding lead over Cheshire, their near-est rivals in the First Division

Middlesex 73 (Goodwin 31; pic Committee, are bein Gunn 10 for 18) beat Derry in London next week, shire 46 (Smith 4/16).

Sir Noel Curtis B

Dorset 101 beat Hampshire * * *

Oxford 118 for 9 (Mann beat Kent 27 (Watts 6/19)

Worcester 42 lost to Decan 105 for 5 (Roberts 72 n.o.) Worcester 55 lost to Glamor-gan 115.

V-J DAY SOCCER

MATCHES Among the several V-J

Day Soccer matches player, Aston Villa defeated Wolver-hampton Wanderers by three goals to one, while Notts Forest beat Notts County by the odd goal in five.

Devon 52 (Pickles 7/18) lost Hampshire 62 for 7 (Arnold 4/17). * * *

Kent 113 beat Somerset 39 (Riley 6/13).

Kent 63 for 5 (Roy 26 n.o., Smith 26 n.o.; Staniford 4/23 beat Lancashire 67 (Kiley 5/6). Luncashire 151 for 8 (Johnson 54 no., Tovey 53 no. Cut-tle 4 (39) beat Lincoln 108 (12) ford 40, McKilniey 25; Stone 200

Oxford 71 for 4 (Price 40) Davidson 4/41) beat Cambridge

70 (Davidson 23).

Sarafand District Avery Brundage Goes to London

lead over Chesnire, est rivals in the First Division of the Sarafand and District Cricket League, but Oxford are being closely pressed by Lancashire.

Here is the latest batch of the United States Olympic Committee, and Sigirid Edstreem of Sweden, acting president of the International Olympic Committee, are being held one committee.

Sir Noel Curtis Bennett, member of the British Olympic Notts 107 (Josephs 22; Andrews 4/27) lost to Surrey 128 Council, who is attending the discussions as British delegate, said yesterday that he would propose that the Olympia Cames he held in London

England 28 n.o.) (Eardley 34, at Wembley.

Northants 162 (Boyce 55, the next Olympics," Sir Noel drew with Gloucester 162 (Embleton 50, Goulding 35; Good-like them, but after all they esekera 3/13).

Cheshire 199

iclpate in the next Olympics. What support he will command for these views in England re-mains to be seen.

BASEBALL

Phillies Defeat National Leaders

The sensation of this week's American Baseball games was the defeat of the National League leaders; Chicago Cubs, by the bottom of the league team, Philadelphia Phillies, by two

There was also a surprise in the American League when the Washington Senators, runners-up, lost to the lowly placed Louis Browns by an odd run in an away ratch Results— home team named first—were:

National League

The Chicago Cubs, leaders of

Flyweight Champ Again Active

Jackie Paterson, world flyweight champion, who has onweek or so after six months abroad with the Royal Air rce, is wasting little time in getting back anto the ring

His first fight will be against Gus Foran of Liverpool at the Dome, Brighton on August 24, but he is more interested in fixing up a fight with Jim Brady, holder of the British Empire bantam-weight championship in order to add another title to the three he already holds.

Paterson is British, Empire and world fily-weight champion, but has not fought within the fly-weight limit for some time. He is the official contender for Bracy's title and the winner will east a title (Moore 5/31).

Yorksh're 133 for 4(Rayanagh 5, Drage 39 n.o.) beat Gloucester 55, Drage 39 n.o.) beat Gloucester 55, Ershire 131 (Embleton 54, Park 28 Kenaghan 4/28).

Division II.

Somerster 101 beat 101 beat

that the first offer made to Brady by a Dundee promoter was around f1,000, which was turned down, but the offer has been raised and there are hopes that the fight will materialize at Hampden Park Glasgow, about a month hence

YACHTING

PHOENICIAN YACHT CLUB

This week's race was again sailed under ideal conditions of wind and sea.

The yachts got away to a good start, Ich Dien and Petronella sailing close together for the first half mile when the former gained a slight weather lead and Petronella went about.

The wind was varying slightall the time and Ich Dien taking full advantage of the slants increased her lead and rounded the windward mark 200 yards ahead of Petronella. with Venture another 300 yards

got a good slant and working well out to windward was pro-bably leading for a short dis-VI DAY mark which Ich Dien made in

On the third round the me

FORTHCOMING MARRIAGE WAECHTER-BLAUKOPF

The marriage will take place on Tuesday, August 21, 1945, at 5.30 p.m. at the Ihud Shivat Zion Synagogue, 67 Ben Yehuda Rd., Tel Aviv, between Mr. Fred P. Waechter and Miss Blanca Blaukopf. This is the only intimation.

OBITUARY

The death took place in Jerusalem yesterday, after a short illness, of Mr Max Bernhard, of Tel Aviv, at the age of 78.

HUBERMAN TO PLAY HERE THIS WINTER

TEL AVIV, Thursday. - Bronislav Huberman, founder of the Palestine Orchestra, will probably come to Palestine shortly after the opening of the winter season, according to a telegram received by the Orchestra management here to-

The noted violinist left New York for Switzerland this week, where he is to appear as soloist at the Lucerne Music Festival. He will return to New York in December.

Mr. Huberman has not been to Palestine since 1940.

EXPLORATION SOCIETY TO HOLD THIRD RALLY

"Industry and craftsmanship in ancient Palestine and her neighbours" will be the theme of a series of papers to be read at the third country-wide conerence of the Jewish Palestine Exploration Society, which is to be held during Tabernacles week from September 23 to 26. Reports on recent excavations will be given, three exhibitions of antiquities will be held, and

excursions will take place to Phoenician caves at Acre, Nanaria and Zib, to Megiddo, and to Beth Shearim.

GOVERNMENT AND INDUSTRIES COOPERATE

RESEARCH for PEACE-TIME

By a Special Correspondent

DISCOVERER OF

THE NEUTRON

Sir James Chadwick F.R.S. who by discovering the "neutron" in 1932, laid one of the main foundations on which the study of the atom is based. He became Nobel Lauseate for Physics in 1935, and played an important role in the construction of the atomic bomb.

sics, electricity, light meteorology, engineering, aerodynamics, metallurgy, radio, and ship design. Its main function is the study of methods of meas-

urement so important for the control of industrial processes.

Here accurate measurement is

undertaken to within one-millionth of an inch. The radio division established a tech-

nique used in developing radio-location, and the ship division, with its model-testing tanks several hundred feet long, is

The Federation of British Industries have announced the formation of a new Research Committee to establish close partnership between science and industry. This was followed by a new £400,000 a year steel research plan and proposals to double the capacity of the existing cotton research. These three city of the existing cotton research. These three horsepower of the biggest tunmeasures, all taken within a few days, are indicative nels now in use of the large-scale rapid expansion which is now taking place in British industrial research.

During the war years the organization of the industrial investigation grew to new and powerful dimensions. It contributed not only to the unparalleled output achieved by United Kingdom war workers, but it also produced weapons which were so largely instrumental, in ensuring an Allied victory. Victane - high octane fuel which gave the Allied aircraft 25% higher speed - the ten-ton bomb, the Baily Bridge, Mulberry Harbour, Radio-location, the ocean pipe line Pluto, fogdispelling FIDO, anti-tank and ack-ack rockets, are only few of the wantime achievements of the United Kingdom scientific industrial research worker This great machinery for scientific inquiry, strengthened and extended still further is now to be geared wholly to peace-time

Government's Leadership

Much of the success of Britain's wartime research — and this will apply equally to post-war — lies in its nationwide organization, headed by the Government. Application of scientific investigation to industry in Britain is in the hands of three main types of organizations. First are Gov-ernment Departments, the chief of which is the Department of Scientific and Indus-trial Research. The function of this body — unique among Government organizations in the world — is to conduct re-search for the benefit of the community, also to aid indus-trial and academic research It covers an immensely wide field, ranging from building to fuel and from radio to engin-

several fundred feet fong, is estimated to have saved ship-owners millions of pounds in thirty years, by research in the motion of ships. The largest establishment operated by this Government department is the National Physical Laboratory in Teddington where much of the scientific work in connection with the atomic bomb was done. It has a staff of well over a thousand, This laboratory has nine divisions: physical Systematics of the motion of ships.

The Government also sponding industrial application, through various ministries and departments. Outstanding is the workers in its research and development organization. One notable post-war development sors an extensive inquiry into industrial application, through various ministries and departments. Outstanding is the General Post Office with 800 workers in its research and development organization. One patchly post way development

Collective Research

The second type of the organization is made up of col-lective research associations, maintained by individual industries, on an unparalleled scale, covering 29 separate industries. Textile, motor-car, food, rubber, engineering and electrical industries are among those taking part. The value of this cooperative study is shown by the results achieved. As far back as 1933 the savings effected included £390,000 on coke in pig iron production, £1,300,000 on coal in steel production, and £1,000. maintained by individual in steel production, and £1,000,-000 in the electrical industry. The Government also supports these collective research organizations by grants.

The third research group is the third research group is that of individual firms. All leading firms in Britain and many small firms maintain their own research organizations as well as collective associations established within their industry This third category also receives Government assistance through remission of assistance through remission of taxation on expenditure and research and equipment. A research and equipment. A recent report of Courtaulds, who stated that they were greatly extending their organization and were also providing £500,000 for university research, is indicative of the scale or which indicative of the scale on which United Kingdom firms carry out and sponsor scientific investigation. They are also sponsoring cooperative research of the Rayon industry.

Industry and Universities

The Courtaulds statement is a typical example of the close collaboration of industry with university research, and their awareness of the importance of the application of pure scientific findings to industrial development. Cooperation was also promoted by such schemes as the exchange of research workers between university laboratories and workshops, as announced last June by the London Midland Scottish Railways. In the same month, tex-tile machinery makers of a big United Kingdom group, re-ported a scheme by which ap-prentices of the textile industry will be able to take full university courses. University study is assisted by Government grants, also financial contributions by industrial firms and organizations.

This in brief is the frame-work of the United Kingdom Industrial research now to be applied full force to the develearners of peace production.

Its achievement will promote prosperity at home also and will bring benefits abroad by stepping up the quality of British exports and the deveLondon's Refugee Centre

"Hall of Hope"

Wood, with disastrous results for the hencoops. At

get for quite probable raids. More than that, she was occu-pying space required for ur-gent naval construction. And completed in the fitting-out basin of her builders, Messrs. John Brown & Company, at Clydebark. This lovely ship—even larger than the "Queen Mary" with two funnels instead of the "Queen Mary"'s three—had always seemed fated to a stormy career. She so, in February, 1940, the Admiralty invoked the Defence Regulations and told the Cu-mard White Star people that the "Queen Elizabeth" should leave the Clyde at the earliest possible date. fated to a stormy career, She was launched at the very

height of the Munich crisis in 1938. The young Queen alone The decision was grave. Here was the most valuable liner in the world, worth millions She had never been to sea On paper she was a greyhound, but who could know how she would behave on such a strange maiden voyage? You had to decide where to send her in the face of the enemy's U-boats and bombers. You had to engage a large crew to take the risk and to keep their mouths shut.

> Well, it was done. Most of us who were not on the spot at the time can still recall our de-lighted surprise at the announcement that the "Queen Elizabeth" was safe in New

Now I have to cut a long and glorious story short and give you just a few significant dates and facts

The "Queen Elizabeth" sail- of the Pa ed down the Clyde on February 26, 1940. After some

By George Blake

from that day five years ago, almost literally, the "Queen Mary" has been round the world again and again and

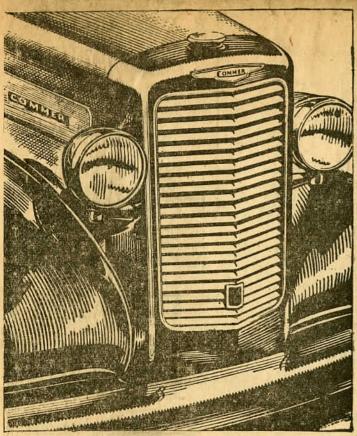

She was stripped and refit-She was stripped and refit-ted for trooping at Sydney within the space of only 14 days. On May 4 she sailed in convoy for Freemantle and so on by way of Capetown and Simon's Town for Freetown, West Africa, She arrived in the Clyde on June 11. Less than a formight later she was than a fortnight later she was off again with 5,000 British troops for the Middle East. She disembarked them at Capetown She crossed the Indian Ocean. She was soon at Trincomalee in Ceylon. On August, 1940, she arrived in Singapore, A dramatic des-

Seaborne Division

Do you remember 1940 and its dreadful tale of our reverses? If ever Britain needed big fast ships to sling available armies about the world it was then. And so the "Queen Mary" was sent out to the big dock at Singapore, specially lengthened for their reception, for a reflit so thorough and extensive that she was almost gutted of her peacetime comforts, and her accommodation so tightly and economically reso tightly and economically re-arranged, that she could carry many thousands of soldiers at a time At the peak of her wartime career, when American reinforcements were pouring across the Atlantic, the
"Queen Mary" was carrying
(and feeding) on every eastbound voyage, as regularly as
clockwork, 15,000 men — the

could not possibly go through the long tale of their voyages. Just take it that together and sometimes in company with other ships, they carried the Anzac troops from Australia and New Zealand to North Africa — and home again in due course. When Australia was threatened after the first Japanese successes, the two sisters, then being overhauled in North American ports, were North American ports, were turned out to save the situation, The "Queen Mary" was at Boston, on the wrong side of the United States, but it wasn't long before she was off with more than 8,000 U.S. troops for Sydney. The "Queen Elizabeth" was at Esquimault with another 8,000 Americans for the defence of Americans for the defence of Australia. More than 16,000 troops in just two ships, covering the width of the Pacific in less than

clockwork, 15,000 men — the equivalent of a division, a town afloat. It is cutting a very long story short to say that the "Queen Elizabeth," completed in New York, quickly followed in her sister's wake. She left New York on November 12, 1940, and left the Singapore dry-dock refitted for trooping on February 11, 1941. I have warned you that I

'COMMER

COMMERCIAL VEHICLES The Hallmark of Reliability

Behind every 'Commer' truck stands the accumulated experience of many years' exclusive specialization in designing and building commercial vehicles.

Throughout the war they have made outstanding contribution to the magnificent transportation achievements of the allied forces and have seen service on every front. They will again, in due course, offer their unequalled value to transport operators in every field.

achievement will promote She is Liane Herz, an Austrian, once a surgical nurse in prosperity at home also and will bring benefits abroad by Vienna, who came to England stepping up the quality of in 1938. Since then she has done British exports and the devemany jobs, from domestic serlopment of new products.

As regards the present Government's attitude to industrial come in here to find that their research, the statement made last January by Ernest Be-vin, now the Foreign Minister, is significant. He said "more and more money and even greater effort must be devoted to research and development."

vice to mother's help. "Every week 30 to 40 people worries are over," she told me with a weary smile.

"The others, well, they keep coming, There is always hope. For this woman there

Her family was put to none. death by the Gestapo.

and King George the Fifth not long recovered from a serious illness, were events that moved us to depression or rejoicing in truly national terms. Now this symbol of our na-tional pride was to be laid up in a neutral harbour "for the time being" after only three years of useful service!

"Queen Elizabeth" 's Maiden Voyage

Meanwhile, during that "time being," her sister-ship the

This year they are penetrat. ing the residential areas of Hampstead and the Ken Wood, with disastrous results for the hencoops. At Ken Wood alone, the number of foxes roving the district is estimated at between thirty and forty. This is the price which London paysand pays gladly — for the heaths and copses which surround the busy city. But the poultry-keepers are becoming concerned.

A MIRACLE OF BRAIN SURGERY

A operation which opens up the possibility that, in the long run, science may accident or war wounds. two British medical men.

confirmed an earlier theory as to where the "seat of worry" is situated in the brain by disconnecting this area from the rest of the

Everyone who has worriedand who has not?-knows the fatal power which, it appears, is possessed by this section of the brain For years the hope-less advice "Don't worry!" has been the best help we could expect. Or a doctor, knowing he could do little, would prescribe the old panacea of rest, change of environment and re-

Medical science has been trying, applied psycho-therapy for extreme cases who may otherwise eventually end in mental institutions, suffering from melancholy or delusions, brought on by worry which has grown until it overshadowed he whole mental horizon.

Often doctors have failed.

Thus the story of the discovery of the brain's worry centre, and of the first surgical operation upon it, is a drama of the highest importance

to mankind.
It was the famous Portuguese surgeon, Professor Moniz, who first, investigated and threw light upon this worry

He broke with modern practice by treating the extreme cases not from the point of of a psychologist but from that of an anatomist and surgeon. His aim was the elimination of the source of worry, and he wanted to do it with the knife.

New Theory

He worked on the theory that the front of the brain, lying behind our forehead and called the "prefrontal cortex," produces the mental associations which direct our moral and ethical functions, just as other areas in the brain prob-ably direct our sensual functions, such as sight, hearing, movements, and so on.

He investigated cases of persons who had suffered from damage to their prefrontal

> cided that by deliberate dam- ligent worker tain emotional and instinctive overcome him. phenomena of the brain - the actual source of worry could be attacked and eliminated.

"Oh, darn! If it were bigger, I'd put my foot through it!"

Animals First Operations were first carried out on animals.

It was left to two Bristol doctors to be the first to put this theory into practice in this country, an operation which gave new and normal life to a man who for years had been a prey to worry in its most extreme form.

They were Dr. Robert Edward Hemphill, director of the Bristol Mental Hospital, and the late Dr. Wilfred Yillway, a London brain specialist

They were assisted by a third medical man, the brilliant Czech endocrinologist, Dr. Max Reiss, a refugee who works at the Burden Neorological Institute in Bristol.

The patient upon whom the cortex, usually as the result of operation was performed was

In a Bristol man who up to the part in the local society while And so Professor Moniz de- also being a good and intel-

No one should get the impression that any surgeon could — or would — perform Through this little hole a the operation on any patient pecially constructed knife—a who happened to be suffering

Some doctors take the view doubtful quality and consider that the patient loses depth of character.

At the same time, the sucsevering of wires between a cess it has achieved in certain transmitting and receiving te- cases give rise to hopes of important and far-reaching dedates and facts.

The "Queen Elizabeth" sailed down the Clyde on February 26, 1940. After some steering and engine trials in the Firth of Clyde she set out for New York on March 2. She crossed the Atlantic with very little incident, arriving at New York on March 7 - just five days after her departure from English shores, and not bad going for a ship that had never had a chance to run herself in. She must have averaged nearly 30 knots all the way across. When she reached New York her arrival was entirely unexpected, and there she was berthed alongside her elder sister, the "Queen Mary"

"Queen Many" at Singapore

But things had been happening to the "Queen Mary" in the meantime

Just the day before her sister sailed from the Clyde, the Cunard White Star Company t word from the Ministry of War Transport that the "Queen Mary" was required for Govput to sea as soon as possible, rather one of logistics. Thirteen days later, on March 20, the sisters parted company.

From New York the "Queen Mary" went to Trinidad. There she took on oil fuel and fresh water and then went on. cording to new orders, to Sydney, New South Wales, by way of Capetown. She reached miles and have together car-Australia on April 17 1940, ried one and a quarter million She had taken just 28 days to passengers, practically all of complete a voyage of over them fighting troops — 14,500 miles — two-thirds of equivalent of 100 divisions. the way round the world. And

POST-WAR PROBLEMS OF PALESTINE INDUSTRY

MR. NOVOMEYSKY'S VIEWS ANALYSED

A study of the present po-sition of Jewish industry in Palestine by Mr. M. A. Novomeysky, Managing Director of Palestine Potash Ltd. and a pioneer industrialist of this country, leads him to the conclusion that it it faced with serious problems which, unless dealt with urgently, will deve-lop into a crisis that will leave Palestine's economy irretrievably damaged.

Writing recently in "Ha'a-retz", Mr. Novomeysky warns against complacence in the matter of the unquestionable wartime achievements of Jewish productivity Basic wages in industry during the same period have shot up, he states. The Jewish Agency estimate of their increase is between 25 and 30 percent in the middle of 1943, and more now, over the pre-war rates, but he also points out that nowadays the basic wage is not the main Fund, leave, indemnity in dis-missal, and, in some cases, provident funds and travelling provident funds and travelling to examine at the fighest leaded he added for indicators. Thus, the His-vel, to communicate their find-the claims LP 1.750 as ings to their respective members, and to educate the latter towards practice of their reskilled labourer, to which amounts a further 11 percent. Should be added for indicate the question immediately confronts one—what is a proshould be added for indirect payment. Mr. Novomeysky calculates that in Palestine Potash Ltd., the daily cost, direct and indirect, of a highly skilled worker is now LP 1.760 and of an unskilled worker

High Local Costs

A second factor dealt with or American counterparts see-ing that the local manufac-turer has neither the right materials nor the requisite experience yet.

The situation that Mr. Novomeysky insists must be faced is the ending of this period of prosperity and full employment the arrival of English and American goods, all cheaper and many of them of better

By an Economic Correspondent new science of Industrial Engineering. In cases where it has been applied in the United States the produc-

> may come sooner than people expect, says Mr Novomeysky, and the first to suffer will be the workers. Preliminary steps to meet it and to miti-

Whether or not Mr. Novo-meysky's gloomy view is com-pletely justified by the facts, some of the facts he brings forward are undoubtedly true. There is a restlessness in Palestinian Jewish industry which causes considerable narm not only through man-days lost in stoppage of work but also, and perhaps more, through day to day disputes in the factories. Not all the employers have yet conceded proper working conpart of workmen's earnings. Not all the employers have yet Apart from the high-cost-of-conceded proper working conliving allowances, a series of ditions as a matter of course, indirect payments must be nor have all the workers contaken into account, such as ceded to the employers the bonuses, contribution to Sick right to expect a proper day's Fund, leave, indemnity in dismissal, and, in some cases, This is a matter for both sides provided to the sides of the proper day's pay. to examine at the highest le-

But the question immediately confronts one—what is a proper day's pay? Is it the sum that will enable the article being made to compete in price with similar articles from abroad, regardless of the effect on the workers' standard of living? or is it the sum which will enable the worker to en-joy a reasonable standard of living? It may be replied that by Mr. Novomeysky is the cost in the latter case there will be of local manufactures. He in- no work and if the article canof local manufactures. He instances a cast-iron boiler made here at the price of Li-1780 when one of better quality delivered from England costs only f150 A large number of such locally produced goods are finding markets, although they are not of the same quality as their English or American counterparts seeit is possible to produce com-petitive goods even with the highest paid labour in the world. And if merely cheap labour is sought, then there is no end to the process except in slave labour, for there is always some country with an even lower standard of living to serve as a criterion.

High Productivity

and many of them of better quality than our own.

Material and Labour

Returning to the two principal factors in the cost of inment Because labour looms about looks in the cost of inment Because labour looms labour l dustrial production, namely large in any analysis, the materials and labour, Mr. Novomeysky does not believe that even substantial reduction in the price of imported raw mann, which appears to hear directed in the first place.

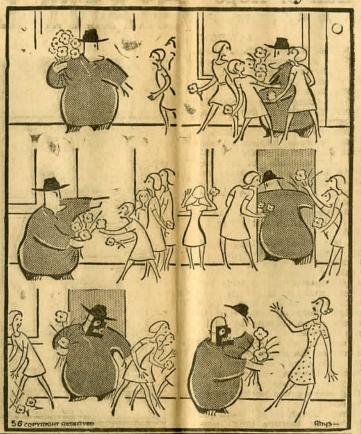

from us. We know nothing of the Government's future tariff policy We do not even know if the Government itself knows. tivity of labour has been entivity of labour has been enhanced, the quality of output
improved, and the earning capacity of the workers raised.
Palestine's industrial crisis
Palestine's industrial crisis do not know whether after the war the Government will con-tinue to hamper certain ecosteps to meet it and to mitiga.e its consequences must be
taken at once by all concerned.

Restlessness in Industry

Whether or not Mr. Novomeysky's gloomy view is completely justified by the facts,

Total many nomic enterprises by special imposts, as in the case of the imposts, as in the case of the whether the Government will, as it did before the war, add to general costs by taxing road transport in favour of the railways We do not know how far the Government itself, or northern same bigsher instance. perhaps some higher instance, is preventing the cost of liv-ing from going down and so preventing the workers from

accepting lower wages
Many such things we do not Many such things we do not know, which, being answered as desired, might enable Palestinian industry to pay high wages and give high profits (another factor left out by Mr. Novomeysky) and still be compatitive. Professor Wise-Guy

WIRELESS PROGRAMMES for today and tomorrow.

Highlights

FRIDAY

The programme in the G.F.P. which used to be called "Forces' Prom" now goes out under the title of "You asked us to play", and it's a sort of classical request programme, usually presenting only one work, asked for by some member or members of the Forces. The work requested this afternoon at 5.15 is Tchatkowsky's Fourth Symphony in F Minor. It will be played by the Hallé Orchestra conducted by Toscanini.

Hallé Orchestra conducted by Toscanini.

Binnie Hale usually introduces "The Melody lingers on", but in today's edition in the G.F.P. at 7.30 p.m. her place will be taken by Marie Burke. Miss Burke has had a long career on the English musical stage. She is perhaps best known for her work in Jerome Kern's "Showboat" and in "Waltzes from Vienna" both of which enjoyed very long runs. She is the mother of Patricia Burke, now also a first-rank musical-comedy star in her own right. Both Burkes have recently returned to London from a long and successful tour for Ensa in the South East Asia Command.

SPORTSMAN'S SCRAPBOOK

TEST MATCH INCIDENTS WERE "NOT CRICKET"

By Our Sports Editor

It is generally assumed that "incidents" in sport are produced in the more streamous games of rugger, soccer and ice hockey, and it is worthy of note, therefore, that the two of note, therefore, that the two finalists of this tournament because of the thunderstorm and first tournament because of the court and the same of the sam major incidents in sport this year have occurred on the cricker field and both at the game's headquarters, Lord's will take place on April 20.

The general opinion is that although the two incidents were within the rules of the game, they were just "not

The first incident occurred when G O. Allen was given out "handled ball", having done what fifty per cent of even first-class batsmen do in picking up "he ball from near his fact of the control of the feet and tossing it to the bow-ler, after the ball was seem-ingly dead. This is usually done to save time. Anyhow, Allen was given out, and it clubs in England to give men abroad a weekly programme, at least until the end of No-vember A match every Wed-nesday is suggested. done to save time. Anyhow, Allen was given out, and it was within the rules. The Auson batting. Such an action be-

Substitute Keeper

Taxing of Golfers

by other means, such as in-structions, it often means less than half. This despite the fact that the professional can set off against these winnings such items as new balls, caddies fees and all costs incurred in leading towns and the fact in the box would have invoked America's "camera eye" — if it had been already installed in England—just to satisfy himself and public opinion. than half. This despite the fact in leading tournaments.

results is of course "unofficial" and tax-free.

An interesting story is revealed of how Tommy Farr's eyesight was saved.

Flarr, who is the only Eng-Farr, who is the only Englishman to go 15 rounds with the world boxing champion, Joe Louis, and was former holder of the British heavy-weight championship, is now 31 and suffered from a serious infestion of the right eve infection of the right eye.

This threatened his eyesight, but the wonder drug penicillin saved it. Farr, who is now the host of a Brighton public house, had to be suspended downwards while the sight saving penicillin was filtered ing penicillin was filtered through his mose and around the affected eye This affect-

and the south-east wind.

C.B. Holmes to Retire

Britain's foremost sprinter, Cyril Holmes, will retire from competitive athletics at the end of the present season.

Although Holmes is now 31 years of age, having been run-ning in first-class athletics more than ten years, only a few weeks ago he won the 100 and 200 yards in the Army Championships beating evens for the 100 yards.

Holmes, who is a C.S.M. Instructor, expects to be demobilized soon and intends to turn his attention to his father's business in Bolton.

Holmes, who ran in the 1936 Olympics in Berlin, won the British Empire Games 100 yards at Sydney in 1938 in the excellent time of 97 sec. and the 220 yards in 212 sec. In the recent four-cornered athletic contest at the White City he also accomplished a double with the two short sprints. Holmes will be sorely missed.

"Camera Eye" Needed

It cannot be made too clear that all concerned with the King's winner, Rising Light, and also Stirling Castle and Hobo, would have appreciated match be incapacitated from illness or injury, but for no other reason, except with the consent of the opposite side "In all cases where a substitute shall be allowed, the consent of the opposite side shall be obtained as to the parson to act as substitute, and the place in the field which he shall take."

Mand also Stirling Castle and Hobo, would have appreciated the photographic finish after the Burghfield Stakes at Ascot a week or so ago. It would have settled so many arguments.

The judge ruled that Stirling Castle had been beaten a head with Hobo anothers short to those augumenting winnings by other means, such as inhead with Hobo anothers short to the sail take."

The judge ruled that Stirling Castle had been beaten a head with Hobo another short head away No doubt the man

Any successful wagering on esults is of course "unofficial" nd tax-free.

Penicillin Saved Farr

An interesting story is placed as joint seconds at long odds. If Dante does not run it would appear to be an out-sider's race, But who?

CONTINENTAL OFFERS FOR ATHLETES

British sportsmen are receiving numerous offers from sporting bodies on the Continent, but none have been more popular than boxers.

Nel Tarleton, British feather-weight champion, has re-ceived an offer to fight for the European feather-weight title against the Belgian champion, Kid Duebert, in Brussels, but

pal factors in the cost of in- ment production, namely large materials and labour, Mr. No- other vomeysky does not believe that even substantial reduction in of imported raw materials will immediately reduce our own costs to a competitive level. Neither would the cost of labour imprediately come down to such a level. He does not agree that in in-dustry and the building trade the element of wages is un-important as compared with the cost of materials, pointing out that in Palestine Potash, although imported materials are supordinate importance and although operations are to a considerable extent mechanized, labour costs formed over ized, labour costs lotted in 1944.

42 percent, of the total in 1944.

For the building trade, if cost of labour in local raw materials used, such as gravel, sand and cement, is added, the total labour cost will be not less than 50 percent. and probably more.

Low Output

To meet the threat of slump and unemployment, Mr. Novomeysky a ks the workers "cease fire" pointing to cease fire" pointing to the damaging effect on Palestinian industry of the 132 strikes and lockouts in 1943 when 113,000 man-days were lost and the 110 strikes in 1944 180,000 man-days lost And he also urges them to increase their productivity, The high reward of labour in America is justified by high productivity, he points out, whereas here the average output is not more than 60 or 70 percent, of what should be the normal, falling even to 50 percent, if the workers liberately go slow Uni Mr. Novomeysky warns, Labour Federation solves this problem of high labour cost and low productivity, not only will our industry not develop, but what already exists may be killed. And for the Histadrut's present inability to solve the problem he blames the loss of con rol and of influence by the more moderate

The Employers' Task

From the employer Mr. Novomeysky asks for better understanding of the needs of the workers, despite the latters exaggerated demands, in view of their undoubted wartime difficulties. The employer must make his worker materially interested in the progress of the factory, which will result in increased efficiency, maximum ty of output. Ways must and 38, 39. J. Malz, Jerusalem: Nos. 37 to can be found for the workers before J.V. 5. B/Con. B/C the enterprises with which 39 to participate in the fortunes they are connected.

For the two sides jointly, Novomeysky recommends long-term agreements regardworking conditions and working conditions and valuations with a set up for tration in place of the sent short-term arrangents which lead to constantly sewed demands, and a chaos working conditions and working to 39. In which industry has no development. Again, only by joint effort can Palestinian industry be given the benefits of the state of the sta in which industry has no chance of peaceful developbe given the benefits of the

large in any analysis, the other two factors tend to be overlooked in Palestine Mr. Novomevsky's ser-Recause which appears to have mon. been directed in the first place to the workers who should not by any means close their ears to it, should be taken to heart also by the employers.

Government as a Factor

There are certain other fac-tors to be considered. The most efficient industry, owned by the most understanding of employers, run by the most ex-pert of managers and served by the most skilled and willing of workers, can be handicapped by unwise Government ad-ministration. We do not know whether Article 18 of the Man-date will survive in its present or some other form. We do not know whether a balance will be required from neighbouring countries between what we buy from them and what they buy

RECENT BOOKS

NEW PERIODICALS

By Olivia Manning

HORIZON, July 1945, 2/-. WINDMILL, Number 2, 4/6.

The new number of Horizon' is one of the most generally interesting that has yet appeared It contains among other things, an essay on Sartre, a description of the Belsen concentration camp and a long review of a new book on telepathy. The variety of on telepathy. The variety of to the world of a prisoner who this reading matter is mede has done a fifteen year acceptable to 'Horizon's readstretch for murder. I doubt ers by the fact that each subject is treated from a common standpoint, the standpoint mot regret having come to the mon standpoint, the standpoint who will not decide a once world given ever to decive. world given over to destruc-tion 'Horizon' has held ground for the intellectual and held it well. As 'New Writing and Daylight' slipped gradually back into the commonplace 'Horizon' held its position the more firmly Other literary magazines are now appearing. and no doubt a reaction will soon set in against the vulgar fiction to which the paper quota has been devoted, but it is unlikely that the newer periodicals will displace 'Horizon' or even seriously rival for some time the even excellence of its contributions.

Ayer's article on Jean-Paul Santre (to be concluded in the August issue) is one of a series on Novelist-Philosophers. Sartre, whose amazing short story "The Room' appeared in 'Horiwhose amazing short story zon' some time ago may to future generations appear the most outstanding of his time.

Alan Moorehead visited Belsen a few days after the British entered. Belsen no longer exists. The living have been removed, the dead buried and the foul buildings burnt to the ground but, Mr. Moorehead says, 'the mental danger re-The danger of indifference'

HH. Price, reviewing Telepathy: an outline of its Facts, Theory and Implications by W. Whately Carington says 'There can be no doubt that this is the most exciting book on Psychical Research since Mr. 'Experiment Time' and in his eighteen page review of the book he goes deeply into the problem of what Dr. Rhine described as 'extra - sensory perception' Other articles in this month's 'Horizon' are 'The Political Condition of France' by Jacques Debu-Bridel and 'A Crisis of the Imaginary' by Andre Masson There are two poems, one can invasion matters -can be done about it?

and the sea In this new novel sive list. he is apparently bringing his very considerable skill to a his usual clarity and sanity, 'In new subject, that of the return to the world of a prisoner who proving him to have been no-has done a fifteen year thing more formidable than a

If this publication of the chapters is an experiment on Newby—an attempt to analyse the part of 'Windmill's' editors the Levantine outlook on life—the part of 'Windmill's' editors the Levantine outlook on life—The Christian Soldier' by Elie Christian Who lived for a Lane, then it is one to which Papadimitriou who lived for a meither novelist nor publisher period in Jerusalem, and my need object. It has proved the own 'Last Civilian Ship.'

PEACEFUL PENETRATION

Britain's magazine publishers kinson's opinion, is the fact are worried by the plans of that — their American colleagues to the me the British market with their products. With an enormous reading public in their own country paying all their overhead expenses in advance, the British editions of American magazines would cost their owners the price of printing and distributing only. The danger of an "American magazine invasion" on a large scale is thus seen to be real and imminent.

Tom Hopkinson, editor of Britain's popular weekly "Picture Post," gives a blunt answer to this question in the "News Chronicle" First of all he says, the public in Britain must make up its mind whether it matters or not "that American ideas and ideals should dominate the magazines we buy as they dominate the films we see, that the reader, like the cinema-goer, should have the American view-point and the American way of life incessantly put before him in-stead of the British"; that Britain, as a result, should become "a second class U.S.A." If, however, the British public thinks that the coming Areri-

the magazines published in this American energy will sweep numbers of them away. There will be a magazine massacre.

Mr. Hopkinson expects many British magazines selling hundreds of thousands of copies to go down in the first rush. On the other hand, he thinks that some typical British per-iodicals, like "The New States-man and Nation" and "Horizon" should not be affected by any American invasion.

The Remedy

The remedy, in Mr. Hopkinson's opinion, is a revolutionary change of staffing. While the British dailies are in hot competition to secure the best editors, reporters and feature writers, and are spending money lavishly to improve their services, periodicals have been run on a key-note of misunder-stood "economy".

"But," says Mr. Hopkinsonwhose own periodical is one of the greatest successes in Brit-ain, "it is not too late to bring new men and women, particularly young ones, and to give opportunity to their tason There are two poems one by Spender both representative pieces. Windmill, the new literary periodical, has now appeared for the second time This number shows a decided improvement on the first and there seems little doubt that when their periodical will prove the editors find their feet their periodical will prove the long needed fiction vehicle for new prose that 'New Writing' and not high provide up to a precidence of the second time This number shows a decided improvement of the second time This number shows a decided improvement of the second time This number shows a decided improvement of the second time This number shows a decided improvement of the second time This number shows a decided improvement of the second time This number shows a decided improvement of the second time This number shows a decided improvement of the second time This number shows a decided improvement of the second time This number shows a decided improvement of the second time This number shows a decided improvement of the second time This number shows a decided improvement of the second time This number shows a decided improvement of the second time This number shows a decided improvement of the second time This number all the invited that the depend on the thought and the three thas finely to their tables in the realize that a material, the nilitary agazine, like a daily paper, must be depend on the thought at the to realize that a material, the nilitary agazine, like a daily paper, must be depend on the thought at the to realize that if our formation, the woman who know and artists handsomely, they and artists handsomely, they are depend on the thought at the time of the second time to provide U.S.A. Fiction and Verse

he calls 'the rag trade'. He a staleness in the telling. It is was managing director of a partly, I think, that Richard is probably the first chapter of a James Hankey novel that as even the best of reviews will be entitled 'Winter Song' Hankey is an accomplished noby Joyce Cary, Thomas Wolfe, velist with a long-standing reputation as a writer of rather O'Conner, Robert Payme and Lohn Robert Payme and L fashionable Hanover Square dressmaking establishment. He much, seen so much, neard so much, and partly that the full in the RAF, which is the job great deal of what he has seen chose to try to turn himself style is breezy and conversa-overnight into a war correspontional, and a little too slapdent - and an American one at that. He never quite succeeds in persuading us that he is a first class news-hog, but he has produced an ententaining book out of his Fougasselike itineraries in search of

> A great part of his early life as correspondent of the "Chi-cago Times" appears to have been spent struggling to get into buildings to enter which one needed a special pass. As the passes, he assures us, were always safely kept inside the building a certain amount of frustration ensued. When he gets into his stride however, he soon shows his paper how willing he is to go anywhere and do anything: Belgium, Finland, Luxembourg, Holland during the Nazi in-vasion, Egypt, India, Burma and America, Perhaps you are beginning to reel that this is just another case of "Tell me country are, on the whole, so the old, old story of Finland, bloodless and so out-of-date and the Continental Bar"? It that American value and is not quite Richard Busvine has an engaging and individ-ual way of patting his war cor-respondent's badges into place and trying to look as if he had been born with a typewriter on

At the risk of being repri-manded for ignoring the war adventures in this book I intend to concentrate on the blondes The blondes are a lot of fun Only one blonde was ever too much for the author— the superb Scandinavian 'natralto parrot trained in a bar-gee's cabin. She was a mistress of both invective and abuse, But my favourite blonde in Richard Busvine's collection is his wife—known as The Screwball. She is an American She has spirit, audacity and a highly infectious love of life. She is as wayward and as radiant as a floating soap bubble When The Screwball is late for an appointment, she does not apologize—she invents a man who sat on her hat in the bus He has a bulldog and six hungry children. There are teans in your eyes when she has finished. She does not sulk

Busvine has rushed about so much, seen so much, heard so and heard are beginning to dash, especially at moments when the breeze turns into a

HEATHER TEAGUE

MARCHING SOLDIER. A poem by Joyce Cary. Michael Joseph. 28pp. 2/6.

The publishers say "This long poem crystallizes Mr. Cary's sense of the tragedy of the war, as well as the unaccountable fact that the discipline employed makes heroes out of very ordinary men and women, Marching Soldier is a poen which touches us all." In point of fact there never was a "poem" less crystalline, re amorphous ich jouched us less.

withers are unwrung"
One of my colleagues on this
paper said of Mr Cary that he
is one of the half-dozen noread "Marching Soldier" with a plea that the author is one of even the half-hundred oets who count It is doubtful he is a poet at all. The care-ul reading of William Blake's rophetic books that he made or his novel "The Horse's or his novel fouth" seems for his novel "The Horse's Mouth" seems to have given him an idea that he could do he same thing if he tried.

Self-confidence is a good hing: but here the result is he expression of commonplace deas and emotions in — to use culinary phrase — coarsely histen: there is no imagery, however hard you look. It is not hard work but fruitless work that one minds. There is proverb about a cobbler: Mr. can write novels

GULLIBLE TRAVELS. By Richard Busvine. Constable, London. 549 pp.

When the war broke out Richard Busvine was something of a personage in what the calls 'the rag trade'. He a stalenges in the talling L is

authority above them is arm-ed, while in international rela-only one that matters. No one can gauge the future spirit of Germany, so it is absolutely mecessary to make her definitely incapable of waging war. This state of things can be accomplished not by partial demilitarization as after 1918. but only by complete and lasting disarmament which must be assured by a strong allied garrison, to be maintained in Germany for a minimum of 50 years.

Schwarzschild warns against meddling with the internal politics of the different countries, golden words that will probably be heeded no more in the future than in the past. And he comes to the conclusion that agains; war between the three Great Powers themselves there exists no preventive beyond their own will and self-restraint, especially as regards Russia. He ends with an impassioned appeal for true liberalism and treedom.

PAULA ARNOLD

PLANNING THE NEW NURS-ERY SCHOOLS Published by arrangement with the Nursery School Association of Great Britain. University of London Press. 40 pp. 2/6.

This pamphlet is a survey of This namphlet is a survey of the essential features of school buildings required for children between the ages of 2 and 7, made by a committee appointed by the Nursery School Association of Great Eritain. The recommendations cover the questions of sitting, garden lay-out, the school building, the staff, and the different types of accommodation required for different age group: groups

A great deal of nonsense stalked about the detrimental is talked about the detrimental effect of the day-nursery on the child. No doubt there is danger if the school is run on hospital or institution lines, but no one who reads this pamphlet and who has had experience of the cramped conditions of even a good working class or modern middle-class home in a large town can have any doubt of the value to the child of the spaciousne huppy activity and expert psychological as well as phy-sical care that he will get in a nursery planned along the

limes recommended here.

"May I ask a question? There are still one or two things about the post-war world that bother me." (The New Yorker)

er are so apposite to the will not change unless an irtheme and so cleverly marsh-resistible super-authority keeps alled that they most strongly all states under compulsion—support the former. It ought and this cannot be hoped for support the former. It ought not to be forgotten that in his weekly paper published in Paris during the fateful years before the war Schwarzschild accurately foretold much of what has come to pass, and warned of much that could have been avoided had he been heeded.

I have found this a book the peace must be reached 'not harder to put down than any on one rail but on two—one cepting the grant the gra cepting the great modern novels. It fascinates chiefly by the author's masterly grasp of prose. There is no the author's masterly grasp of however hard you facts, his clear and compelling logic, and by the raciness and humour of his style Incidentally, it is very well translated inco English

This brilliant achievement parallels another great oc-casion in Hebrew literature some generations ago. When Salkinson's translation of "Othello" appeared in 1874, Peretz Smolenskin, the leading publicist of his day, was so enthusiastic that he wrote in the preface: "Vengeance has been taken upon the sons of Britain, At last we repay them for having made our Holy Librarian's Death
The death has occurred in gland of a man who kept largest and most expended help tongue, since now its beauty holds so rare a gem!"

Translations such as this prove the vitality of the Hebrew language and its ability to meet the challenge of absorbing world classics into its own.

KODAK FILM is helping to design better aero engines

Illustration is from a cine film made by Kodak's supper-speed camera at 2,500 pictures a second. The film shows various aircraft fuel injection jets in action. On the screen the action can be studied in ultra-slow motion and this has enabled, the jet with the best fuel distribution to be selected. If you have difficulty in getting 'Kodak' Film, one reason is because vast 'Kodak' Film, one reason is because yast quantities are needed for vital work in

SERVING HUMAN PROGRESS THROUGH PHOTOGRAPHY

"THE BARON'S" PORTRAIT

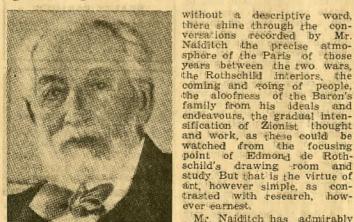

By Ludwig Lewisohn

It is a relief and a joy to come upon a brief book that brims with life Mr Isaac Naiditch, veteran Zionist, probably fell quite naively upon the delightful form into which he cast this book. But it happens cast this book. But it happens that from 1919 to the death of the "Baron", 'Mr. Naiditch turned himself, as it were, into his Boswell. He recorded the living words concerning Pales-tine and the Zionist cause utbered over many years by Edmond de Rothschild The remond de Ro'nsenid. The re-sult is a portrait of the utmost pointedness, distinction and charm — a book that tells us more and tells that more better than a long and heavily docurrented record would have

done.

Mr Naiditch's great point is that, within the limitations of his age and station, Edmond de Rothschild always was a Zionist and not a mere philanthropist Despite his great age he followed the intellectual curve of his time, assum-ed the Honorary Presidency of the Jewish Agency in 1929 and finally wrote that open letter of fiery protest to the London "Times" which marked the culmination of his career not as a philanthropic pre-Pales-

Baron Edmond de Rothschild

Baron Edmond de Rothschild character and very lineaments of a man of the rarest good-ness and the clearest vision, founder of the Jewish State to a man of extraordinary beauty be Nor was Baron Edmond of character and of steady de-unconscious of that fact. In a votion to the highest ideals fascinating conversation with and purposes within his sphere. Mr. Naiditch, he narrated the story of his meeting with Herzl, his not at all unintel-ligent objections to what seemed to him the danger of Herzl's immediate techniques and ending with the admirable remark:

enabled us to see and feel the Of how many men in all history can as much be said?

"But history has shown that trast between its brue charac-Herzl was right and not I." ter and its mystic reputation It is curious how, almost in the world.

The translation by Mr. M. Z. Frank is worthy of all praise and even more to commended is the translator's wise and acute preface on the Rothschild family and the con-

ever earnest.

Bu BEAU BRUMMEL

HERE are three instances of women holding exceptional jobs — all three in the United States.

Mins. Muriel Tsvetkoff is General Manager of the Better Business Bureau of San Francisco, Vice President of the National Association of Better Business Bureaux, and the first woman to hold office in this organization. Her office which she has headed since 1936, handles an average of 1,700 complaints a month

As a girl, Mrs. Tsvetkoff took piano lessons, Having be-come somewhat of an accomplished pianist with pupils of her own, she wanted to study with a master. To earn her lessons, she applied for a job and got one with the Oakland Better Business Bureau. Thereafter, in her own words, "she just grew into the work", which is backed by the whole business community of San Fran-

Keaping the Light
Mrs. Fanny May Salter, who
succeeded her husband as
keeper of the Turkey Point
Lighthouse, Maryland, high up
the Chesapeake Bay, is the only woman lighthouse-keeper in the U.S. Coastguard Service. Her permanent appointment by the late President Coolidge shattered a long-standing rule that held "women shouldn't be employed in such arduous

duties"

Until two years ago, when the electric light system was installed at Turkey Point, Mrs. Salter had to climb to the top of the lighthouse four or five times a day. She maintains a radio watch and is on duty seven days a week, 24 hours a day. Snow-blocked roads often maroon her many weeks at a time during the winter, leaving radio and telephone as her only means of communication with the outside world.

Mrs. Salter wonders whether

she will ever be able to sleep away from the light. Said she: "You see its bright beam has been shining through my bedroom windows for so many years that it has become my security and companion When-ever the light goes out I wake up immediately."

Editor of Army Paper

Mrs. Thelma Thurston Gor-ham, a young Negro woman, claims to be the only woman editor of a U.S. Army Post newspaper — the "Apache Sen-timel" at Fort Huachuca in Arizona, where Negro troops are trained. She is an accomare trained. She is an accomplished journalist, and the only other person on her staff of 30 who has ever seen the inside of a newspaper office fruit, and at the street vendors. All the food must be carried before is another woman, a who actually offer their wares, by hand from the shop to the Negro WAC who was a reporter.

I READ IT Twenty-Three Women M.P.'s in Parliament By BARBARA CASTLE

The number of women in the

new House of Commons has risen from 14 to 23. I believe that women are going to play much bigger part in this Parliament than in any previous one. For the first time we shall be accepted as ordinary, hard working members, and this is what we want. For we have come to Parliament to do what, for want of a bet-ter word, I might call a "mansized" job. In short, to represent the interests of all people, men and women, young and old, in our constituencies.

Anyone who expects us to concentrate on a few domestic issues will have some surprises. Women have been elected this time for every type of area, from London to Tyneside, from North Lanark to Norwich. We have in our ranks a barrister, a journalist, teachers, economists, local councillors and students of international affairs. We shall raise every type of problem in the House. By our work in this Parliament we shall end once for all the idea that women can be sent to Westminster to represent only "women's inter-ests". We shall claim to be fighting for the interests of the wage and salary earners as a whole, for we maintain that women's cheap labour is a constant threat to the income standards of men, and most men now agree with us.

But don't image that this means that we shall waive our claim to speak with special knowledge on matters in which

war-time conditions and life in

luxuries: tomatoes, well,

(Barbara Castle, at 33, is one members will be particularly had no space for parking a pram and nowhere at all for boiling the weekly washing. The houses of the future, whether produced by the Govern-ment or the local authorities. must be better designed than that.

Education is another field in which women have tended to specialize. They know how important the school can be in making or marring the child, Getting rid of slum homes is a fine ideal — but it is only half a victory if the slum schools remain. Clearing away out of date school buildings, cramped play grounds, and over large classes is one of the big jobs ahead.

But it is wrong to imagine that these are the only women MP's interest. All of us, who have fought in this election, who have been brought up against bad housing conditions, backward educational standards, and inadequate provision for babies and mothers, have realized that all these problems are merely a part of a wider problem which must be solved, our country as a whole is to flourish. If poverty is to be wiped out, we must get rid of unemployment, the chief cause of poverty. And if we are to get rid of unemployment we must set our industries to work producing the things we need, according to a central plan.

We shall make the prosperity

and expansion of British in Women M.P.'s will see, too, dustry one of our primary con-that the houses built today are sensibly planned. Mistakes in home front we shall never for-

Other facilities are also War-Time to Peace
The change came so gradually from peace to war-time conditions that one is not aware of them unless by one being planned to encourage candidates to undertake work in this field, which is considered of primary importance at the present time.

Another project to provide peacetime professions to ser-vicewomen, especially for those who before the war were employed in children's institu-tions, health work, etc. is a in socia

New Trends in Modern Furniture

Now that we are in the postwar period and raw materials as well as finished products will soon, we hope, be had for the asking, it might be a good idea to see what the future has to offer us in the way of fur-

Functionalism is still the basic factor in the design of every piece you see — no unne-cessary frills or knick-knacks but bold lines and striking colours

Here is a beautiful example of clear lines and originality: a low glass wooden framed cof-fee table, in the centre of which there is a shallow pression to be used as a flow-er bowl. With a few roses or gardenias floating in it, it makes a charming decoration — without obstructing the view across the table. Another idea on similar lines, is a built-in cigarette box, the dream of every hostess, I am sure.

New curtains, too, will go a long way towards rejuvenating your home. A good idea — and an easy one - is to dye your curtains in a new shade in harmony with the general colour scheme of course. Leave a broad band of the original chintz or creton undyed it at the top, in the middle and at the bottom in different widths and you will have almost new curtains at small expense.

Plastics, of course, will be the joy of every decorator and housewife. Experiments are constantly being made and soon a plastic fabric is expected on the market, in no way different from any woven ma-terial, but with a big surprise: rub a damp loth over it and it is as shiny as new Though we will have to wait

for the removal of many restrictions, it is stimulating to know that modern technology ls preparing an abundance of beautiful — and practical —

What's in the Market Now?

By LILIAN CORNFELD

JUGUST is an off month for A'UGUST is an off month for vegetables. Eggplant which is not too greatly appreciated is in its heyday. If anything can be done with an eggplant it is right in this country. A minimum of 100 ways is required of an Arab housewife but Europeans don't do too but Europeans don't do too badly at that. The main difference lies in the preparation. The Oriental method is to fry it first and foremost and then bake or stew it ad lib - the Western world prefers its"veg" bland and stews or boils it straight. Peeled, cubed and steamed with margarine and served with lebania — it's realnot bad at all.

Gourds in Season

Watermelons are now very plentiful and very good. There is an enormous crop and the price is lower than last year. Natives of this part of the world use watermelons not on-ly as staple food but as a drink

Chosen for You By GERDA MAASS

This is just about the time of the year when one gets around to thinking about a new dressing gown, what with old ones worn out or so badly faded that they are hardly presentable. But before we go on I'd like to say a word about dressing gowns. If we rightly understand their purpose, they are a 'before-dressing-gown" and not, as I frequently notice, to be worn for shopping in the morning or a trip to the beach. Convenient as this may be, it gives you the air of "floppiness," which must be strictly avoided in the feminine outfit

There are two different types of dressing gowns - one the dressy specimen, which I think had best be left till winter comes and the simple type which we suggest here. To serve you best in these midsummer days there is only one material that should be used cotton. Cotton is cool, doesn't stick to your skin and washes best of all materials available. It may be blue or green with little white spots or, if you prefer the more decorative-white ground with printed chrysanthemums or

On the whole there are only two main styles for dressing gowns. The first one, preferable if you are tall and slim, has either a round collar or tailored reveres, is buttoned straight up the front, with little gathers below the shoulders and at the front top of the skirt, which ought to be wide but not flared. The belt to go with it may be of the same material or of shiny leather.

The second kind has an exaggerated shawl collar, the longer part of which comes down right across the front till it reaches your left hip where the belt ends in a huge soft bow (as sketched). The skirt is more or less straight, but wide and comfortable.

JOBS

HOSE girls who prefer a job which permits them to work independently and to use their creative talents, might do well to examine the possibili-ties of handweaving. If they have good taste and able hands -here is a profession which can give them an excellent in-

The present vogue for handwoven material is not just a passing fashion fancy which will disappear in a few months. Handwoven materials have been appreciated by decora-tors and the well dressed for a long time, and their deve-lopment here due to wartime necessity, has opened a new field Simple handwoven linens have been made here for centuries and were always very popular - especially among the tourists. Modern weaving has a definite future in that it is attuned to the times.

There are a number of private and philanthropic organizations that teach handweaving. The New Bezalel School in Jerusalem, however, provides a three years course, which not only teaches students the manual skill of handling a loom, but also the history of art drawing, design, science of colours, and other relevant jects. Students are accepted at 16 and should have at least six

years secondary schooling.

The students exhibition at
the New Bezalel School shows that many have already reached a high standard of develop-

Fashion Prizes

The Foreign Trade Institute has just announced the prize winners of the Tenth Fashion Show held in Tel Aviv at the end of June.

First Prizes were awarded by the Jury to: Standard Stock for their coats and costumes; Marina for handwoven costumes, and Angela for lingerie.

Centificates of Merit were awarded to: S. Blumenthal and Gina Greif for gloves; E. Bachmann for ladles' belts; Tavor Ltd. and Omanuth (Klein & Komm) for artistic handdoraft; Aled Ltd. for knitted wear; S. Scharf for furs; M. K. (Kathein & Neumann) for beach dresses; Fashion Dress Co. Ltd. for coa's and costumes; M. Gruen for leather handbags, and Anatole Potok for trimmings.

From Fashion Headquarters

A glamorous trousseau always affords a thrill to but even perfect strangers, who were guests at the fashion show and tea at the Carina Salon, Haute Couture, Jerusalem, this week, shared in the excitement as about the carine. ment as they glimpsed some of the gowns which Miss Abiad of Haifa will wear in Beirut after her marriage on August 19.

They looked a little puzcountry.

Special Projects

Large numbers of women are clearly themselves still undecided as to the choice of a career. A great number of these are without previous experience of any kind. Special projects are being planned to provide for them. Cooperative enterprises loom large in projects of this kind. Girls in the Forces, having become accus-tomed to live "cooperatively" with their camp mates at home and at work, are looked on as eminently suitable material for establishment of new cooperative kitchens, sewing and knitting societies, laundries or particularly of London, where I workshops for other typically lived during the whole war, have become infinitely weary, especially those who reside in the suburbs. And all these ward. Many A.T.S. girls were hardships are only minimisks employed as drivers and are hardships are only pinpricks employed as drivers and are compared with the time of the contemplating setting up co-blitz, the buzz-bombs, and the operatives for inter- and intra-city *ransport.

price is lower than last year. Natives of this part of the world use watermelons not only as staple food but as a drink ed a high standard of developin warm weather. There are 3 methods for testing ripeness of in colour blending. a melon: 1) Thump the side of the watermelon — if ripe it is supposed to emit a dull hollow sound 2) Scrape the rind -ripe melon has green skin which comes off easily 3) Black seeds.

A Favourite Supper

Toast a piece of bread on one side only. Butter the toasted side and place a thick slice of tomato on it and cover that with a thick slice of cheese. Put into the oven and leave until the cheese melts over the tomato. Served with hot chocolate and a bunch of grapes this is a good meal. Fish cakes made with mash-ed potatoes instead of the usual bread or flour make a light

appetizing meal. Add to well seasoned mashed potatoes some chopped onion, parsley and tin-ned or cooked fish, an egg. Form into croquettes and fry in deep fat.

Rice Cream Boil two the rice in water until soft. Make a pudding using 1 the cornflour, 2 tbs. sugar, salt, and a cup of milk. Add the cooked rice, any cooked fresh or dried fruit in season, flavour with cinnamon or vanilla and turn into a rinsed out mould. Chill.

ally used again on the other side for judges' notes and court memos.

Worshippers on their way to relief to present Jewish sufferthe future. Thus, the case of the Zionists, presented with real force of conviction, makes an undeniable appeal to men

> The brilliant success attending the observed progress of the Jewish National Home, the prosperity which it has brought to the non-Jewish inhabitants of Palestine, the bright prospects which are held out for the future, and the potential gain to world security implicit in the growth of an enlightened, progressive society in territory so strate-gically situated — all these strong arguments of expediency, strengthen the moral obligation originally assumed by Great Britain under the Mandate, and now reinforced by the sufferings of European Jewry, to encourage the settlement of Jews in Palestine. Thus, urge the Zionists, it is Britain's interest and Britain's duty alike to dictate the abandonment of the policy of the 1939 White Paper and proces. 1939 White Paper and recognize the right of Jewish immigrants to free admission into Palestine. Had this course been adopted before the war, it is claimed, tens of thousands of Jews would have been saved, in addition to the 65,000 who found refuge during the war years, and the tragedies connected with the nefarious traffic in illegal immigration by means of rotten, unseaworthy

war. But it does and arms.

In such a situation, the position of the Mandatory is difficult in the extreme in the entire Middle East, whose tranquility is vital to Britain and her Allies There is a strong case for urgent action as the only hope of avoiding serious trouble. Much anxious thought has been devoted in past years to a possible reconciliation of the Jewish and Arab claims, but no satisfactory means have yet been devised. Nevertheless certain basic considerations will possess their old validity. So long as both sides claim the whole of Palestine as their political field, no adjustment can be made without violating the rights of one side of the other; but just as there are Jews who do not share the Zionist view that the National Homemus embrace all Palestine and even Trans-Jordan, so are there Arabs prepared to accept the existence of a Jewish majority vessels would have been wholly avoided In spite of the force of these contentions, it can be stated with confidence that had the situation of Palestine been as clear and as simple as it appears to enthusiastic Zionists, Arabs prepared to accept the existence of a Jewish majority in parts of the country. the country would have long ceased to constitute one of the in parts of the country.

Equitably to divide so small an earen is difficult; indeed, after the Woodhead Commission report in 1938, the Government of the day pronounced Partition as impracticable, but no one has successfully discuted, he contention storm centres of the Middle East. The heart of the difficulty lies in the fact that Pal-estine has not, from the time of the Diaspora to that of the Mandate, ranked as a self-con-

HEAT WAVE IN PALESTINE

FLAGS DROOP 'NEATH DUSTY SKIES

Victory Days in Palestine are apparently not complete without a heat-wave. Victory in Europe came at the height The political declaration issued by the World Zionist Conference in London repeats the chief demands of the Movesthe Chief demands of the Chi period yesterday by a new heat-wave

Until late afternoon, Jerusalem's flags drooped listlessly on their masts beneath a dusty sky. Towards evening, a breeze blew up but brought little re-freshment to those suffering from heat or hangover.

The hottest places in the country were Beersheba with 37C (99 F); Kallia 36(97), and Lydda, 35(95). Gaza's maximum shade temperature was 34 (93 F), while both Haifa and Ramallah registered 33(91).

Heads of religious communities and representatives of public bodies called on the Je-rusalem District Commissioner, Mr. W.R. McGeagh, yesterday morning to offer their con-gratulations on the occasion of V-J Day. Refreshments were served, except to Moslem visitors observing the Fast of Ramadhan.

Mr. McGeagh, who was assisted by the Deputy District Commissioner, Mr. J. A. Hilton, and the District Officers, thanked the callers who signed their names in a special Book. ed the importance of the Mid-dle Eastern area in any future plan of world security. Book.

Government, military and banking institutions were closed, but most shops were open.

In Tel Aviv

Conflict of Two kights

The editorial then proceeded to sum up the essence of the Paiestine problem, as the Royal Commission of 1936 pointed out, as residing in the conflict of two rights; the Jews to a National Home and the right of the Arab to retain power in a country which had been part of the Arab world for more than a millenium, stating that hitherto Britain endeavoured to reconcile the two rights by limiting their exercise. The Mayors of Tel Aviv and Jaffa, Chairmen of Local Councils and notables called on the Acting District Commissioner, "Lydda" District, Mr. I'L. Phi-lips; the Assistant District Commissioners, Mr. R.C. Mus-grave and J.R. Smith and the various District Officers in

various District Officers in Jaffa yesterday.

A Thanksgiving Service was held in the evening at the Ohel Moed Synagogue, in Tel Aviv, attended by Mr. Philips; Mr. Musgrave; the Acting District Commissioner, Mr. J. Kuperman; the Mavor, Mr. I. Rokach; Chief Kabbi Toledano; members of the Tel Aviv Municipal Council; the Town Major, Major Bridgewater, and Mr. C.A.R. Lawrence D.S.P.

Haifa, Gaza and Galilee

In Haifa, the District Com-missioner, Mr. A.N. Law, received callers yesterday morning. The Senior Naval Officer, Levant Area, Captain N.M.F. Corbett, R.N., gave a cocktail party at his residence last of the Forces and prominent paign started by the Turkish

residents.

Thanksgiving Services will be held at St. Luke's Church on Sunday morning and there will be a military church parade the same morning. A solemn Te Deum will be celebrated at St. Jo-eph's Latin Parish Church at 5 o'clock on Sunday afternoon.

paign started by the Turkish reactionary press is not only harmful to the cause of the United Nations but first of all to the interests of Turkey herself."

VICTORY DAY TURKEY LEANS ON U.S. IN STRAITS ISSUE

> TRUMAN'S STATEMENT RESTORES CONFIDENCE

By ELIZABETH BARKER, Reuters Special Correspondent ISTANBUL, Thursday — The ratification of the United Nations Charter by the Turkish National Assembly yesterday marked a new step in streng-thening Turkey's international position though this cannot be finally consolidated until satisactory relations have been resored with Russia, whose pact Turkey is due to expire next November, following oviet denunciation five months

The Charter has been critic-ized by some Turkish news-papers for its alleged ten-dency to override the rights of small nations, and it is now thought by some political com-mentators here to be outdated by the atomic bomb which is regarded as likely to be a pow-orful factor in determining the relations between the Big Powers and — in American hands — to favour small nations such

as Turkey.
The Charter ratification, ed here by President Truman's statement about joint control of the Dardanelles by Turkey and the Big Powers, which has restored the confidence some-what shaken by the omission the Straits from the Potsdam declaration.

It is assumed by informed quarters that President Tru-nam's proposal excludes any question of establishing either Soviet or international bases in the Straits. While the absence of Soviet comment on President Truman's proposal is noted here, Turkey relying on the American lead which, it believes, has British support, calmly awaiting the forthcoming Foreign Minister's meeting London to which the proposal has been referred.

Pravda" Attacks Turkish Press

MOSCOW, Thursday (R) — "Anti-democratic sections of the Turkish press" are today castigated by "Pravda" in a long article published pronently under the heading of "Provocateurs under the Mask

After alleging that a number of Turkish papers were carry-ing on an anti-Soviet campaign. and citing Huseyn Yalchin for special mention, "Pravda" con-

he peoples of Asia must have decisive say in the shaping of their future destinies, Mr. D. Birla, one of India's most powerful industrialists and influential politicians, said here

BULGARIAN ELECTION CRISIS

MINISTERS THREATEN TO RESIGN

> By ROBERT LLOYD Reuters Correspondent

LONDON, Thursday (R) A crisis has broken out in Bul-garia. With the election only 0 days off, four Ministers have threatened to resign unless the polling is postponed. The Prime Minister, M. Ki-

mon Georgiev, has indicated that the Ministers' action is connected with the intervention of Mr. Maynard P. Bar-nes, U.S. representative on the Allied Control Commission in Sofia, Mr. Barnes sent a Note to Georgiev which, it is reliab-ly learned, expressed doubts as to whether the elections would guarantee a democratic representative government, Washington considers a neces-sary condition of reestablishing diplomatic relations with Bulgaria.

This note has been publicly described by the Bulgarian Premier in an English-language broadcast from Sofia as an unwarrantable interference in Bulgaria's domestic affairs His broadcast was the first disclosure that a crisis existed.

This news was contained in a letter received in Jerusalem from Dr. Max Schumert, of the Hadassah University Hospital, who was sent there recently on a medical mission to care for the sick in the internment camp.

VILLAGE ADOPTS REFUGEE CHILDREN

TEL MOND, Thursday. — All the inhabitants of Ein Vered village turned out in a body yesterday to welcome 53 refugee children from Greece who to be adopted by local families.

The children, aged from four to 13, are the first of a group of 150 youngsters to be accepted by settlements of the Tel Mond region, in accordance with a scheme worked out by the Jewish Agency.

MIZRAHI SCHOOL FOR REHOVOTH

REHOVOTH, Thursday. The corner-stone for a Mizrahi (Orthodox) Elementary school was laid by His Eminence the Chief Rabbi, Dr. I.H. Herzog, on an eight-dunam block here this afternoon.

The building, which will provide facilities for 87 popils, will be finished within four months at a cost of LP6,000. Of this sum, LP2,000 has been provided by the local Mizrahi Organization and parents of pupils, while the remainder will be given by the World Mizrahi Organization.

The ceremony was attended by Rabbi M. Ostrovsky of the Vaad Leumi and Mr. J. Gorodissky. Chairman of the Local Council.

POTASH WORKERS MAY STRIKE

TEL AVIV, Thursday. — An urgent meeting of the Executive Committee of the General Federation of Jewish Labour (Histadrut) was called today to deal with the situation caused by the demands of Jewish workers of the Palestine Potash Company for higher wages

and war bonuses.

If agreement is not reached within a fortnight, the 710 workers of the Company will go on strike.

KUWEIT PRINCES IN JAFFA

Four princes of the reigning family of El Kuweit, Abdallah el Salix, Abdallah el Khalifi, Mohammed el Jaber and Sabah Salim el Sabah, accompan-ied by the Emir's Secretary, Izzid Jaffar, visited Jaffa yesterday on their way to Egypt.

culty lies in the fact that Palestine has not, from the time of the Diaspora to that of the Mandate, ranked as a self-contained political unit and has always been counted as a portion of the Arab world.

Over-simplified Standpoint

To view Palestine as though it were an island or as though its problems were to be isolated from those common to the entire Middle East, is taking a dangerously over-simplified standpoint. The truth is that Palestine can only be regarded ritius are expected to arrive in as a completely open field for Palestine before the end of Jewish settlement if the probnext week. They sailed from lems presented by the rise of the island on August 11, it is Arab nationalism are ignored, and if the Mandatory obliga-tion for ensuring that the rights and position of the non-Jewish sections of the popula-tion are not prejudiced by Jewish immigration is cast aside. The Arabs at present living in Palestine dread and abhor the prospect of being reduced to a minority community in country which they regarded as their own.

Their views are shared by every Arab Government from the Levant to the Yemen. British policy is in the eyes of the Arab world a serious blot on a record which has for long been recognized as one of honourable friendship for Islam, and for Arab leaders everywhere Britain's encouragement of Jewish immigration represents the principal obstacle to their wholehearted political collaboration with her in the peaceful development of the Middle East. Britain's policy Middle East. Britain's policy before they return home.

EMIR FEISAL DISCUSSES

PALESTINE QUESTION

HEAT WAVE IN EGYPT

CAIRC, Thursday (R.) — The severest heat wave for 50 years has resulted in the deeath of 27 people in the Assuan region of Upper Egypt. Many others have had strokes during the declaration of the Zionist Conference.

The Emir Feisal and the other wholehearted political collaboration with her in the peaceful development of the Middle East. Britain's policy before they return home. Middle East. Britain's policy only remained barely tolerable to them because they recognized her earnest endeavours to ensure that the political and economic rights of the com-paratively backward Arab elements will not be submerged by the rising tide of Jewish na-tionalism. It is a matter of history that British policy in

the Woodnead Commission report in 1938, the Government of the day pronounced Partition as imday pronounced Partition as impracticable, but no one has successfully disputed the contention of the Royal Commission that only Partition can reconcile the growth of the Jewish National Home, whose destiny would be entirely under Jewish control, with the rights of the Arab community to secure the pursuit of their own political development. Such a plan, in spite of all inherent difficulties, possessed the additional advantage (according herent difficulties, possessed the additional advantage (according to the paper) of enabling the problem of the Holy Places, sacred to the three world religions, to be separated from the question of adjusting political relations between Jew and Arab. commissioner, Mr. J.F. Cornes, in Safad.

An informal reception in honour of V-J Day was given by the Acting Assistant Information Officer, Mr. R. Alkalay at the News and Reading Centre in Tel Aviv on Wednesday.

but she was also bound by the wider obligations of the United Nations and their general inter-es; in the tranquillity of the Middle East.

cordially invited.

In Gaza, the Acting District Commissioner, the Earl of Oxford and Asquith received visitors at his offices, Buildings all over the town were gally beflagged and Government offices, schools and buildings and the Municipality were closed.

The suggestion in yesterday's report that it was soldiers who on V-E Day in Jerusalem tore down flags while "mafficking", is deprecated in military quarters. All evidence points to the admirable behaviour of the troops on that occasion, and if there was any pulling down of flags, in a spirit of fun, it was centainly not the work of soldiers exclusively.

The article suggests that ter-ritorial limitation would enable ritorial limitation would enable the National Home to develop into a National State and adds that if Britain alone were concerned with the future of Palestine, she might well be excussed for reluctance to devote further efforts toward honouring an obligation that at times seemed impossible of execution. an obligation that at times seemed impossible of execution,

and servicemen and women are of their future destinies, Mr. D. Birla, one of India's most powerful industrialists and in-fluential politicians, said here

"THEY ARE GOING OUR WAY"

IN TITO'S YUGOSLAVIA

By BERTHA GASTER, Special to The Palestine Post

CINCE I left Yugoslavia a unhappy

I should like to go on record here and now with a few positive statements. Tito's Government has come to stay. For one thing, it has the wholepart of the working class; of a large number, though not all of the peasants, particularly in those parts of the country where war raged most fiercely; of most of the younger intellectuals and of the army. For another, it has a positive drive a Partisan woman answer you, and direction For all its as she answered me:

faults, it offers a definite and heartening faith in the future mother a Croat. Eighteen of the control of which has aroused passion and devotion and an individual sense of responsibility in a whole body of men and women.

And there is no alternative. And there is no alternative.

The Grumblers

There is no alternative I have them up to be gassed, to save talked with a good many peo- the other two. Now she is ple in opposition to the Parti- half blind, half deaf, half mad san policy — peasants, middle-elass, former Government ofecials, and journalists Some have unity between us. Do you talk of the King. Others of the think I would be the best of the separation of Serbia and Croactia "since the Serbs cannot
live with the Croats" or vice

Nothing, however, is vet clear. The first imperative need is to get the country under cultivation and working again, and to get plans worked out, and ruth-lessly scrapped if they do not

Economically, the Government faces no easy problem. The destruction must be seen to be believed. I drove through Lika where the fiercest fighting of the war had taken place. For a hundred miles not a single house in a single village be, to prevent such hatreds ris-ing a ain?"

is standing. A few inhabit-ants are left; in the Kordun region, some 15,000 out of 43,000 live among the rubble, creeping into the pigsties and dugouts at night. They pull their own ploughs across the corner of waste fields, since two-thirds of the country's livestock was carried off by the Germans. They live on the country is the country in the country in the country in the country is the country in the country in the country in the country in the country is the country in the grass, nuts and a few handfuls of grain, since there is no transport as yet to bring up even the meagre UNRRA. supplies from the coast.

That new social order is not touched that you should take Communism. Even the most all this trouble to visit us," he extreme Communist leader resaid, "but we know that we salizes that to try and introduce shall starve this winter."

Those parts of the country send food to Montenegro and Bosnia for lack of transport. The situation will be slightly eased when 1,500 trucks from America arrive there this month. More are expected next month. But unless they arrive well before the snows set in, it will be impossible to build up supplies of food to carry these people through the winter months when the roads are impassable.

Industry, likewise, has suf-fered. In Kraguevatz, for in-stance, one out of 7,000 machines remain in the factories rest. And even in those parts materials.

These People Think Ahead Faced with such difficulties, the people have done remarkable things. The railways are being restored with unexpected speed. Improvised bridges spring up, almost overnight. I heard an American railway expert marvelling that the down in comfort to take remain line from Trieste to Belgrade, with no less than 80

breaks in it, was repaired in three weeks, "when we estimated that it would take at least three months. These people think ahead, you know," he added The Germans had ripped up all the ties along the track before they left. "I asked them how it was possible to replace them in so short a time. They told me that a million wooden ties had been cut during the last months of the "We Shall Starve"

In parts of Bosnia, the children eat only every other day. The ration for the heavy worker there is 200 grammes of food a day; 100 for his wife and children. An U.N.R.R.A man who toiled up the moun
million wooden ties had been cut during the last months of the exaggerated. But the main lines of their planning are wise and generous; their energy and initiative is undisputed; their devotion is admirable. Their necessities are sharper, their methods are different, but they are going our way.

PIETRO MASCAGNI: IN MEMORIAM

No opera ever caused greater sensation than Mascagni's one act opera "Cavalleria Rusticana" The composer, who died at the beginning of this month, at the age of 82, was a piano teacher in a small town. Opera had given him up. But he had not given up Opera. Instead of conducting other people's operas, he wrote this own, submitted it to a minimum to the lime suddenly leaping into the lime reaction to the story, it is his own melody. Thus it becomes the most popular tune of the end of the last century, played tens of thousands of times. Intermezzo Sinfonico. Between love and jealousy, intrigue and murder, there is no foyer for relaxation with the tension of operatic conflicts in the back-ground. Between the two scenes of the opera the foyer main closed, the audience retion of its composer. Pietro Mascagni was not one of the

No opera ever caused great- a forgotten opera. A composer in the audience, it reflects his

town. Opera had given him up.
But he had not given up Opera. Instead of conducting other people's operas, he wrote his own, submitted it to a competition, won the first prize and gained world fame within a few months.

Mascagni, in the succeeding Mascagni, in the succeeding of the song, somehow it responds to few great melodies.

Between the two be played on every occasion, and in these days it is played everywhere in commemoration of its composer. Pietro Mascagni was not one of the ten greatest composers, not of the fifty..., perhaps not of a simple melody, it might be a love mezzo Sinfonco is one of the few great melodies.

will be such as to contribute Kords. materially to that essential, if difficult purpose of the

occupation. The very presence of this impression on the conquered people. It should bring home to them the utter futility of the execrable policies pursued by their erstwhile leaders. If there was any part of the Nazi programme on which the energies of the sadistic group at the head of the movement were concentrated it was the extermination of the Jews. Yet after all the shootings and burnings sons of this ancient martyred people reappear in the very heart of Germany, not as refugees and war victims, but as an active partner in the victorious crusade of world liberation. History could not have administered a more striking object lesson to the cruel apostles of a nihilistic "Realpolitic."

who with ease, if not comfort, six years ago adapted himself to the remarkable inconveniences of total

Bon Marche

war should find almost unsurmountable 'ifficulties in adapting himself to the comparative order of peace, is probably in nothing more noticeable than in the question of eyes for bargains. For years the common man has gone his way

like a birds-nesting boy with his neck cricked to shop windows in search of the cheap and nasty as distinct from high-class goods designed for the payer of super-tax. Any loot, varying from Heinz's tins to a dryish but pre-war lipstick, was regarded not merely as infallible conversation fodder, but as a major war triumph Queues formed if anyone so much as saw, a hank of knitting wool, and the acquisitive instinct became so developed that the true shopper would buy anything

however useless or undesirable

so long as it cost less than

three shillings With peace and the feeling that the exporting ambitions of great powers would probably result in a certain advantage to the local buyer, one might have thought that the latter would nurse his cost of living and keep off the market until the position righted itself. But the habit, once acquired, is difficult to discard, and with more and more once common, but now exotic, articles gently and imperceptibly flooding the place, the temptacomes equivalent to the drug

contact with people and places, become "perfect strangers" to each other How their marriage is nearly lost and yet redeemed again is the theme emotional story in which Korda anticipates the assail many young couples after their war service.

Mascagni, in the succeeding 55 years, composed many other operas, but none is likely to survive him for more than a few years Their music is not inferior to that of Cavalleria, domestic problems which will nor is the banal peasants' assail many young couples story of Cavalleria more exciting than the libretto of many

To "Tnuva" Milk Consumers

In accordance with Tnuva's policy throughout the war, the supply of fresh milk has been greatly increased during the past year in response to the needs of thousands of new consumers.

Even during the period of seasonal decline in production, every effort was made to maintain the supply of fresh milk at the highest possible level. It was found necessary at the beginning of the summer to reduce supplies by one day in two weeks. However, owing to a further considerable reduction in milk production we were compelled to introduce the same allocation scheme as prevailed last summer. Arrangements have therefore been made for the regular supply of fresh milk (on the basis of the usual ration) five days a week:

In the event of your being supplied with less than this quantity complaints should be addressed to the local Tnuva Offices.
