Dear Mr Resin,

I am really much obliged to you for your letter and your kind interest for my ^{poor} sister. Hearty thanks to you!

My sister seems to be the only one in my family in London who is worried about 50 members. I suspected that she is ill as you did not write anything about her health. ^{and as she herself did not write} Could it you let us know her exact address. From our authorities ^(including the Jew. Agency) I could not find out her whereabouts. I wrote to the Red Cross and to the Jew. Agency, London.

My sister has in Galicia ⁹ husband, a son, a niece and a daughter
