Enclosed please find a copy of my report of my visit to Foreign Minister Carl Blix. I would like to point out the following.

1. Re Wallenberg, the Swedish government has given the matter much time and has done its best. Berlander, Palme and lately Prime Minister Ullsten and Foreign Minister Blix have made great efforts to achieve results in the Wallenberg case. Wallenberg was employed by Lauer, owner of AB Meuropa together with Salén. Salén intervened with the American ambassador Herschel Johnson, who in turn intervened with the Foreign Minister. A journalist by the name of Philips has written many articles in Dagens Nyheter against the Russians and the Foreign Ministry. Mrs Kollontaj requested Mrs Günther to ask her to use her influence to stop these writings. I have spoken with Mrs von Dardel, but could not influence her. I have published a communiqué in which I said that the Swedish government has done everything in its power. Philips has written in an article in foreign newspapers that Per-Albin Hansson, Undén and myself were pro-Communists.

2. Re Bernadotte. The agreement with Himmler through Kersten regarding the handing over of concentration camps to the Allies could only be carried out in practice with the aid of Schellenberg to whom Count Bernadotte had promised asylum in Sweden, as also Franz Göring.

Regarding the 10,000 consumptive Jews, mainly from Bergen-Belzen, the Swedish government has in July 1944 granted them entry to Sweden after intervention of a representative from UNNRA together with Zelmanowitz from WJC in London and with myself as representative for Jewish Agency. These 10,000 sick Jews are in addition to the Jews who arrived in Sweden before the end of the war.

Foreign Minister Blix asked me if I have published anything about my work and my activities. I have answered no. I have not wanted to do this since I wanted to point out that it is a Swedish action. In reality, nothing could be carried out without efforts from the Swedish government.

The allegation in Israel that Folke Bernadotte was a Nazi is not true. Gösta Engzell has told me that Hitler said that Bernadotte is a representative for the damned Teutonic race in Sweden.

With kind regards,

Sincerely.
